Continuous Delivery with Sitecore

addition

Sebastian Tecsí

- Sitecore Solution Architect
- Working with Sitecore for 9 years
- Certified Sitecore 5, 6 and 8

What is Continuous Delivery?

“reduce deployment cycle and increase stability and reliability through automation”

Why Continuous Delivery?

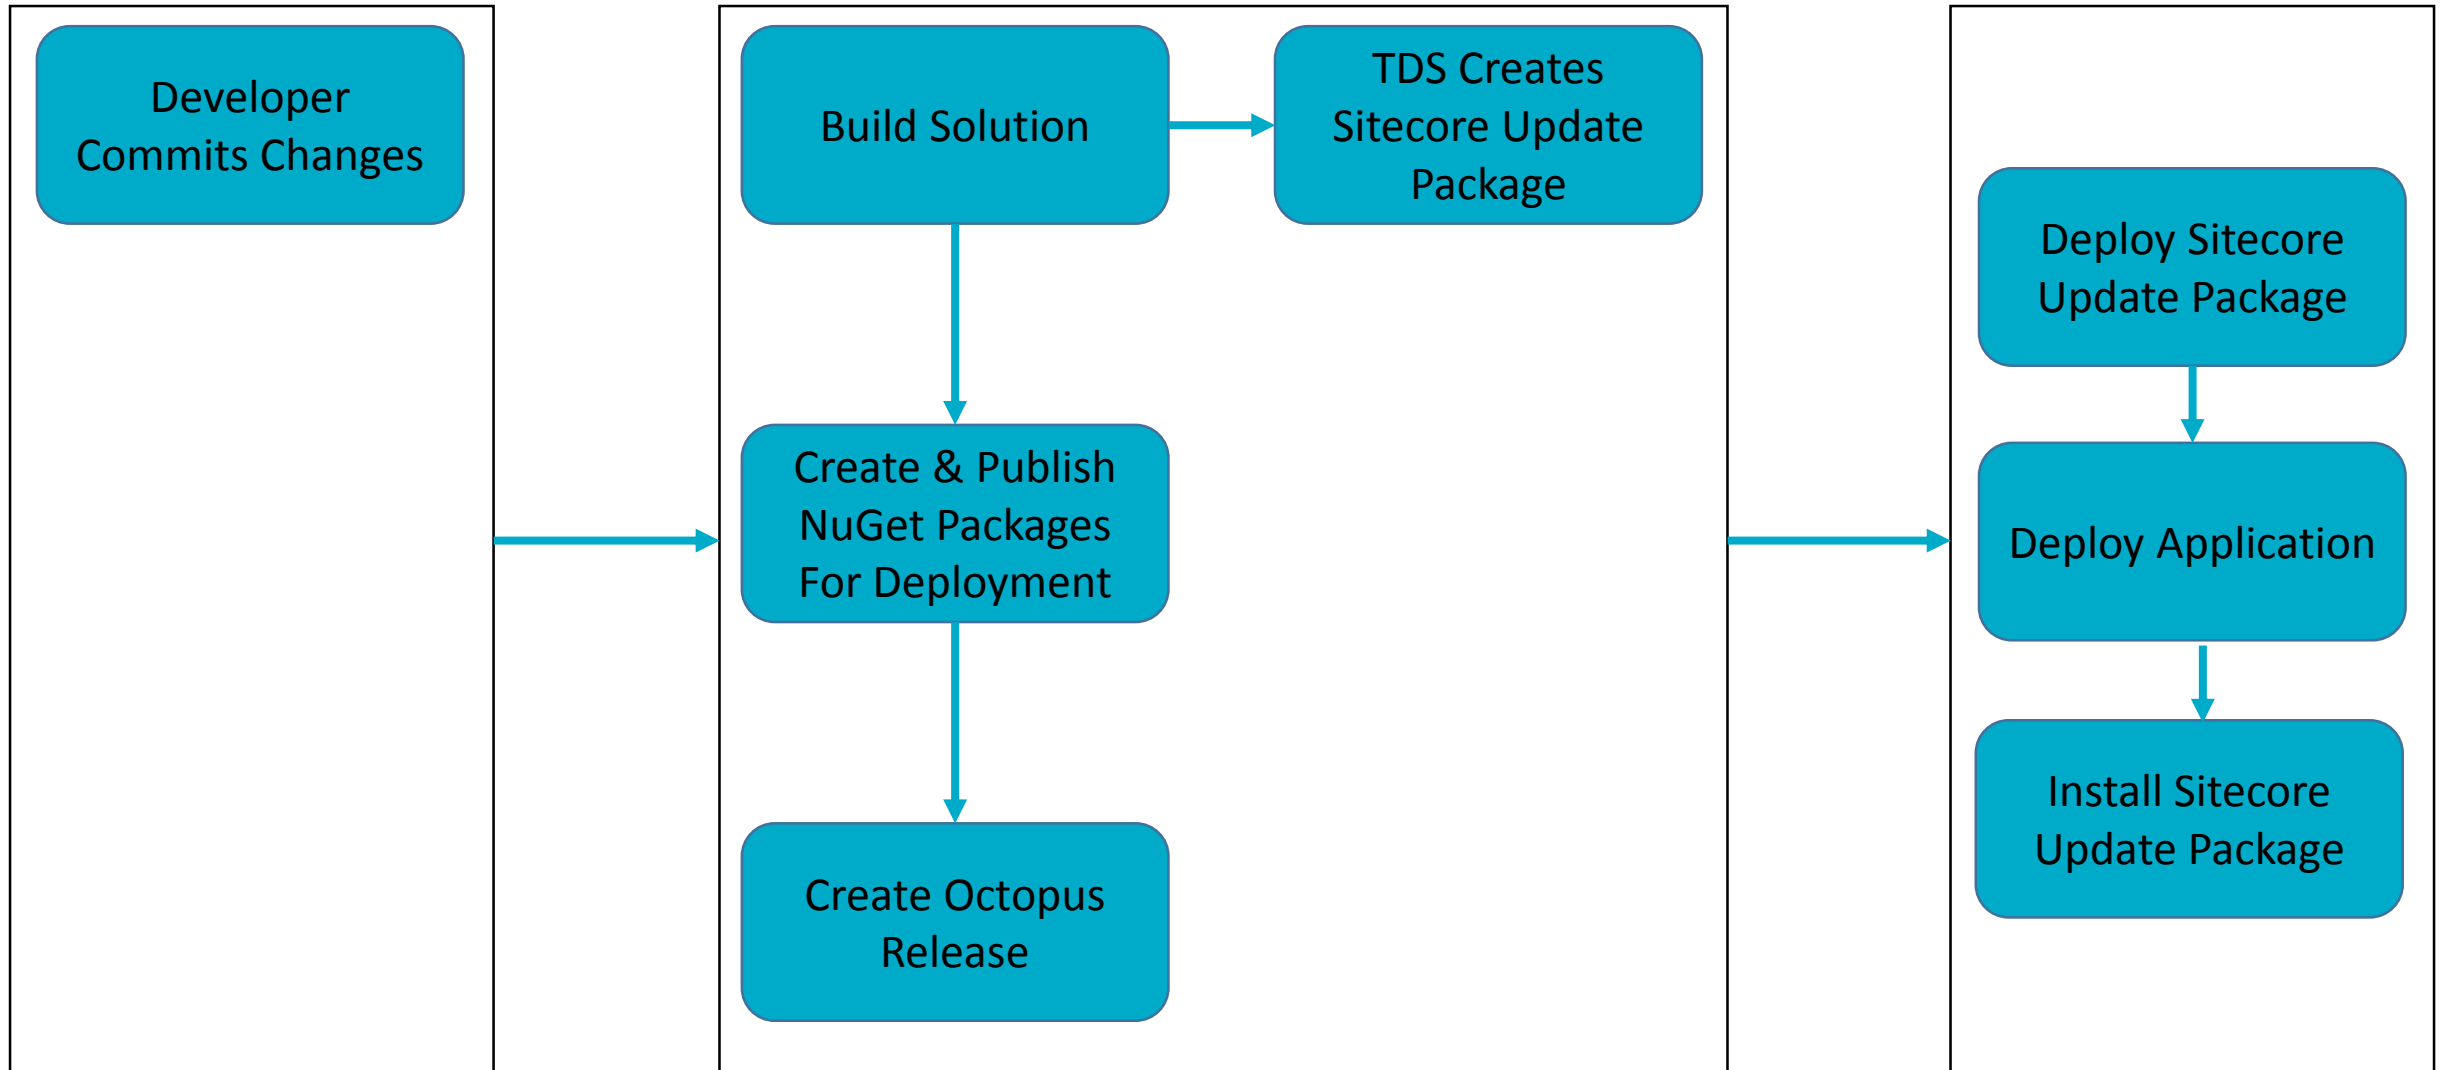

- It fits with our Agile approach
- Reduce Cycle time
- Takes the pain out of releases
- Continuous Feedback

Tools

addition

How to do it?

Demo time!

addition

What can be improved ?

- Automation for backups
- Config transformations
- Run Sitecore Publish
- Roll-back
- Re-indexing

Questions and answers
